

BGCF365 - 2018/2019 Education Grant Recipients

| Organization | Project Title | Project Description | Number Benefitting | Grant Amount Awarded |
|-------------------------------------------|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|----------------------|
| Living Arts and Science Center | Science Explorers: Expanding Opportunities for Students and Families | Our project strengthens and expands the Science Explorers after-school program for low-income and minority students in grades 3 – 5, by increasing participation of students and their families in family programs, and piloting a summer camp for Science Explorers students. | 240 | \$2,500 |
| Partnership for Successful Schools | One to One: Practicing Reading with Students | One to One recruits and trains volunteers to become literacy coaches and mentors in support of struggling readers throughout their elementary school years. Formal results from testing cycles plus feedback from teachers and schools consistently indicates the One to One approach works. | 200 | \$5,000 |
| Lexington Public Library Foundation, Inc. | Destination Kindergarten | Just half of all children entering Fayette County Public School kindergarten are “ready” for school. Lexington Public Library will prepare children for academic success by delivering early education services throughout Fayette County with a new early literacy initiative, Destination Kindergarten. | 5000 | \$5,000 |
| Midway University | PATH (Providing Academic Transitions to Higher Education) Mentoring Program | The PATH Mentoring Program was created to facilitate the pathway to higher education by inspiring leadership skills by fostering school and community involvement. This academic year-long program motivates and prepares female minority students to obtain a post-secondary degree. | 100 | \$2,500 |
| One Parent Scholar House | One Parent Scholar House School Preparedness for Children | This project will help instill enthusiasm for learning and the expectation for success begins at an early age; and this project will ensure that each child in the Child Development Center has books, art supplies, Creative Curriculum educational materials necessary kindergarten readiness. | 180 | \$10,000 |
